SUMMARY

Former Multimedia Designer with experience designing websites and mobile applications, now specializing in front end development to build interactive and responsive web experiences. Aspiring to become a Full-Stack Developer.

SKILLS

Languages: HTML, CSS, JavaScript, Typescript

Frameworks and Libraries: React, Tailwind CSS, Next.js, Bootstrap

Design Skills: UI Design / Web and Mobile Design

Tools and Platforms: Git, GitHub, Vercel, Cloudflare Pages

WORK EXPERIENCE AND PROJECTS

Photography Portfolio Website

December 2024 - January 2-2025

Next.js Project

- Built a personal photography portfolio using Next.js, Tailwind CSS, and TypeScript, hosted on Vercel. Showcases my own photography work with dynamic galleries and optimized image loading for performance.

Portfolio Website

November 2024

React Project

- Designed and developed a personal portfolio using React (Vite) and Tailwind CSS, hosted on Cloudflare Pages. Features a clean, responsive layout to showcase my development work and skills.

iPhiTech IT and Digital Solutions

August 2023 - November 2023

Freelance Multimedia Designer

- Designed user-friendly websites and mobile app interfaces that aligned with clients' brand identities.
- Provided developers with visual references for both desktop and mobile layouts, improving workflow efficiency.
- Contributed to securing new business by impressing clients with design visualizations.
- Created graphics, videos, and product mockups to boost brand engagement and support marketing efforts, resulting in increased client engagement.

Accenture Technology Academy

January 2023 - May 2023

Internship

- Designed the user interface for the "CICT Capstone Evaluation System" at Bulacan State University using Figma, enhancing usability for faculty and students. This contributed to securing a top 4 spot in the batch for system presentation.
- Learned basic HTML, CSS, and JavaScript through Pluralsight courses, gaining foundational front end development skills to enhance UI design and front-end projects.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Major in Web and Mobile Applications

Bulacan State University | 2019 - 2023

GWA: 1.47

- Dean's List - April 2023
- 3rd Runner Up in C++ Programming - November 2019
