Work Experience

iPhiTech IT and Digital Solutions   **August 2023 - November 2023**

Freelance Multimedia Designer

- Designed user-friendly websites and mobile app interfaces that aligned with clients' brand identities.

- Provided developers with visual references for both desktop and mobile layouts, improving workflow efficiency.

- Contributed to securing new business by impressing clients with design visualizations.

- Created graphics, videos, and product mockups to boost brand engagement and support marketing efforts, resulting in increased client engagement

Accenture Technology Academy   **January 2023 - May 2023**

Internship

- Designed the user interface for the "CICT Capstone Evaluation System" at Bulacan State University using Figma, enhancing usability for faculty and students. This contributed to securing a top 4 spot in the batch for system presentation.

- Learned basic HTML, CSS, and JavaScript through Pluralsight courses, gaining foundational front end development skills to enhance UI design and front-end projects.

Education

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Major in Web and Mobile Applications

Bulacan State University | 2019 - 2023
